

Special Olympics Indiana follows Special Olympics International and United States Golf Association Rules that require all golfers to walk the course. A participant is never walking more than 9 holes during a competition, as that is the highest level of golf offered. Any participant (athlete or partner) may request to use a golf cart for medical reasons that would prevent the participant from competing otherwise. The participant's physician **MUST** attest to the following for use of a golf cart to be granted...

1. Doctor is aware that all golf participants are required to walk during competition?

Yes _____ No _____

2. Without the use of a golf cart, the participant would be unable to compete in the 3, 6, or 9-hole competition?

Yes _____ No _____

3. Would the participant benefit from walking during competition?

Yes _____ No _____

4. Would the participant be able to golf a lower number of holes without the use of a cart?

Yes _____ No _____

Participant Requesting Cart

County Program

By signing below, the physician attests that the above participant would be unable to compete in the Special Olympics Golf Tournament without the use of a golf cart.

Physician Signature

Date

In addition to this signed document, Special Olympics Indiana requires a Physician's Prescription for a golf cart and a copy of the Golf Cart Best Practices form signed by the County Coordinator no later than 1 week prior to competition. These 3 documents should be sent via mail, fax, or email to...
