Special Smiles

Healthy Athletes Discipline

Special Olympics
Indiana

ONE OF SIX DISCIPLINES OF INDIANA'S HEALTHY ATHLETES PROGRAM

Special Smiles provides comprehensive oral health care information, offers free dental screenings and instructions on correct brushing and flossing techniques, and empowers Special Olympics athletes to take charge of their oral health. This also includes issuing preventative supplies, like toothpaste, toothbrushes, and fluoride varnish. Indiana's *Special Smiles* Clinical Directors are Dr. Armando Soto and Dr. Louie Stumpf.

"We need to ensure that the dialogue on health equity also includes intellectual disabilities, which has traditionally not been the case. Special Olympics has the tools to support your inclusive health journey."

Vice Admiral Jerome M. Adams, MD
Surgeon General of the United States
